Nuclear Engineering and Design 160 (1996) 447–448

Nuclear Engineering and Design

Subject Index of Volume 160

Engineering mechanics

Fracture analysis of full-scale pipe experiments on stainless steel flux welds, S. Rahman, G. Wilkowski and F. Burst 160 (1996) 77
Stress intensity factors of two bonded half-plane problem with a point heat source, C.K. Chao and S.J. Chen 160 (1996) 97
Elastic-plastic fracture assessment using a J–R curve by direct method, E.P. Asta and E. Chomik 160 (1996) 129

Materials properties

Fracture analysis of full-scale pipe experiments on stainless steel flux welds, S. Rahman, G. Wilkowski and F. Burst 160 (1996) 77
Stress intensity factors of two bonded half-plane problem with a point heat source, C.K. Chao and S.J. Chen 160 (1996) 97
Elastic-plastic fracture assessment using a J–R curve by direct method, E.P. Asta and E. Chomik 160 (1996) 129
Calculation results from radiation embrittlement of VVER pressure vessel at Kozloduy, NPP T.G. Apostolov, Kr. D. Ilieva and T.M. Petrova 160 (1996) 153
Complexing properties of the main organic acids used in decontamination solutions for nuclear power plants and reactions involved in their degradation or elimination, B. Bayri, R. Rosset, J. Desbarres, A. Jardy, D. Noel, O. Kerrec and B. Lantes 160 (1996) 159
State of the art of water chemistry of Japanese, BWRs K. Ishigure 160 (1996) 171
Primary coolant chemistry in VVER units, J. Kysela, M. Zmitko, V.A. Yurmanov and V.F. Tiapkov 160 (1996) 185
Selection criteria for the best secondary water chemistry, F. Nordmann and J.-M. Fiquet 160 (1996) 193

Mechanical design, component fabrication and testing

Aircraft crash upon outer containment of nuclear power plant, H. Abbas, D.K. Paul, P.N. Godbole and G.C. Nayak 160 (1996) 13
Deformation and perforation of clamped work-hardening plates struck transversely by blunt missiles, H.-M. Wen 160 (1996) 51
Investigation of samples taken from Kozloduy unit 2 reactor pressure vessel, A. Kryukov, P. Platonov, Ya. Shtrombakh, V. Nikolaev, E. Klausnitzer, C. Leitz and C.-Y. Rieg 160 (1996) 59
Crack initiation, crack growth and fracture behaviour of large diameter pipes with circumferential defects under internal pressure and superimposed alternating bending load, W. Stoppler, D. Sturm, K. Hippelein and A. de Boer 160 (1996) 137
Calculation results from radiation embrittlement of VVER pressure vessel at Kozloduy, NPP T.G. Apostolov, Kr. D. Ilieva and T.M. Petrova 160 (1996) 153
Laser shearography for inspection of pipelines, A. Ettemeyer 160 (1996) 237
The safety of nuclear power station components, E. Roos, K. Maubach and N. Albert 160 (1996) 241
Verification of the VVER-440 pressure vessel neutron fluence calculation by activity measurement, K. Ilieva, T. Apostolov, I. Penev, S. Belousov, E. Taskaev, S. Antonov, T. Petrova, P. Tzokov and Z. Bojadjiev 160 (1996) 257
Stochastic seismic response analysis of soft soil sites, J.A. Pires 160 (1996) 363
Dynamic characteristics of welded structures, Shigeru Aoki 160 (1996) 379
The seismic reliability of VVER-1000 NPP prestressed containment building, P. Varpasuo 160 (1996) 387

Scram reliability under seismic conditions at the Experimental Breeder Reactor II, J. Roglans, C.Y. Wang and D.J. Hill 160 (1996) 399
Seismic probabilistic safety analysis of unit 1 of the Loviisa nuclear power plant, P. Varpasuo, J. Puttonen and M.K. Ravindra 160 (1996) 411

Reactor concepts and systems analysis

Two passive safety systems in a 200 MW demonstration nuclear heating plant, M. Peng, C. Ma, S. Bi, D. Wan, X. Li, R. Li, Y. Gao and W. Li 160 (1996) 213
Probabilistic assessment of the fracture mechanics behaviour of an HTR-module primary circuit pressure boundary, M. Staat 160 (1996) 221
The safety of nuclear power station components, E. Roos, K. Maubach and N. Albert 160 (1996) 241
Probabilistic safety assessment past, present and future, L. Lederman, F. Niehaus and B. Tomic 160 (1996) 273
Fragility estimation for seismically isolated nuclear structures by high confidence low probability of failure values and bi-linear regression, A. Cărăuşu and A. Vulpe 160 (1996) 287
Normalized failure cost as a measure of a structure importance, Jun Kanda 160 (1996) 299
Simple method of evaluating the failure probability of a structure considering the skewness of distribution, T. Ugata and K. Moriyama 160 (1996) 307
Seismic damage hazard analysis for requalification of nuclear power plant structures: methodology and application, P. Bazzurro, C.A. Cornell, D. Diamantidis and G.M. Manfredini 160 (1996) 321
Random thermal fatigue in fast breeder reactor: a narrow-band spectrum, Hiroaki Tanaka and Michiko Toyoda 160 (1996) 333
Direct analysis method for probabilistic fracture mechanics, Hiroshi Akiba, Shinobu Yoshimura and Genki Yagawa 160 (1996) 347
Stochastic seismic response analysis of soft soil sites, J.A. Pires 160 (1996) 363
Dynamic characteristics of welded structures, Shigeru Aoki 160 (1996) 379
The seismic reliability of VVER-1000 NPP prestressed containment building, P. Varpasuo 160 (1996) 387
Scram reliability under seismic conditions at the Experimental Breeder Reactor II, J. Roglans, C.Y. Wang and D.J. Hill 160 (1996) 399
Seismic probabilistic safety analysis of unit 1 of the Loviisa nuclear power plant, P. Varpasuo, J. Puttonen and M.K. Ravindra 160 (1996) 411
Seismic reliability of electrical power transmission systems, J.A. Pires, A.H.-S. Ang and R. Villaverde 160 (1996) 427

Structural design, construction methods and testing

Seismic damage analysis of concrete members, Y. Li and S. Zhao 160 (1996) 261

Miscellaneous

Economics of nuclear electricity and interfuel competition, P. Silvennoinen 160 (1996) 5

System control and controls

Analysis of the fluid-elastic vibration of a U-bend tube bundle induced by cross-flow in PWR steam generators, W. Cheng and I. Finnie 160 (1996) 111

Nuclear safety

Safety objectives for next generation reactors: Proving their achievement, P.Y. Tanguy 160 (1996) 1
Real-time risk assessment of operational events, L.J. Perryman, N.A.S. Foster, D.R. Nicholls and J.F. Grobbelaar 160 (1996) 203
Two passive safety systems in a 200 MW demonstration nuclear heating plant, M. Peng, C. Ma, S. Bi, D. Wan, X. Li, R. Li, Y. Gao and W. Li 160 (1996) 213
